How do we identify pupils with SEND?

Information about the First Federation Trust policies for identification and assessment of pupils with SEND can be found by clicking on the link below:

[Policies | First Federation](#)

Pupils have special educational needs if they have a learning difficulty or disability which calls for special education provision to be made **which is additional to or different from** that normally available in a differentiated curriculum. We regard pupils as having a Special Educational Need if they:

- Have a significantly greater difficulty in learning than the majority of pupils of the same age, or;
- Have a disability which prevents or hinders him/her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions
- A child under compulsory age has special educational needs if they fall within the definition at (a) or (b) above or would do so if special educational provision was not made for them (Section 20 Children and Families Act 2014)

Children with SEN are identified by the following assessment routes all of which are part of the overall approach to monitoring progress of all pupils:

- Child performing below age related expected levels and performance thresholds – this could be in any of the core subjects, or in social emotional development.
- Assessments of children on entry to school e.g. Speech and Language assessments, Baseline assessments
- Ongoing tracking attainment of children through the year
- Internal assessments
- Concerns raised by parent
- Concerns raised by teacher
- Clear systems to raise concerns in place, involving consultation with parents.
- Consultations between class teachers and members of the leadership team where progress is discussed
- If children have English as an Additional Language (EAL) and there are SEND or progress concerns, the school will commission first language assessments to ensure an accurate assessment of need is made.
- Extensive Liaison with external agencies e.g. Educational Psychology, Communication and Interaction Team
- Health diagnosis through Paediatrician or advice from GP
- Liaison with previous school or setting, if applicable
